

# **EXTENSION: EXPRESSION OF INTEREST FOR EVALUATORS OF HEALTH PRODUCTS AND ADVISORY COMMITTEE**

## **BACKGROUND**

The South African Health Products Regulatory Authority (SAHPRA) is responsible for regulating all medicines, and medical devices in South Africa by ensuring that they meet standards of safety, efficacy and quality. SAHPRA operates in terms of the Medicines and Related Substances Act, 1965 (Act 101 of 1965), the Regulations issued in terms of that Act, and associated guidelines. SAHPRA has also been delegated the task of overseeing radiation control in South Africa. This function is governed by the Hazardous Substances Act (Act 15 of 1973) which aims to protect the public (e.g. workers, patients) against radiation used in both health settings and in industry. SAHPRA's function is therefore to promote public health and safety by ensuring that all medicines and medical devices that are available and used in the country are safe, effective and of good quality.

This document provides an overview of desired skillsets for external expert evaluators required by SAHPRA to support its evaluation processes as well as for members who will be considered as the CEO advisory committee members.

## **REQUIRED TECHNICAL EXPERTISE**

SAHPRA requests the submission of curriculum vitae by persons with experience in the disciplines of: pharmaceutical chemistry/organic chemistry; pharmaceuticals and pharmaceutical development; bioequivalence; biological medicines; toxicology and medicine safety; biomedical and clinical engineering; biotechnology; virology and microbiology complementary; African traditional medicines; veterinary; clinical and clinical trials; vigilance; medical devices; good practices (Good Manufacturing Practice, Good Clinical Practice and other good practices); radiation control and legal matters related to health products. CVs will be considered for potential appointment as external expert evaluators and or a member of the advisory committee.

Interested individuals should explicitly indicate in the cover letter their area of expertise and interest in relation to the disciplines above.

## **DESIRED KNOWLEDGE & SKILLS**

### **Applicable Knowledge**

- Extensive knowledge of health products control and regulation
- Extensive knowledge of technical aspects for clinical evaluation of safety and efficacy of health products
- Extensive knowledge of technical aspects for evaluation of quality and bioequivalence of health products
